Skills

ASP.NET, Vue.js, Docker, K8s, OracleSQL, PostgreSQL, MongoDB, Elastic Stack, Google Cloud, Vercel

Languages

- Russian
- English
- Azerbaijani

Study

- Assembler
- Lexical semantics
- Elementary Particle physics
- Graphics Shaders

About

C#/.NET backend engineer specializing in distributed and fault-tolerant systems, server architecture and microservices. Experienced with ASP.NET, Entity Framework, Oracle SQL PostgreSQL, Docker and Elastic Stack, with additional expertise in network infrastructure backend development, RPC protocols and real-time client-server systems.

Professional Experience

TRUSTCRYPT DATA MANAGEMENT L.L.C | Full Stack Developer, <https://trustcrypt.com/>

02/2023 – Present

- Developed a platform for working with a X-RAY API for VPN's
- Created a system for calculating positions by LBS towers and GPS logic
- Integrated 5 payment providers and developed a unified payment processing layer
- Developed and integrated n8n workflows for automated localization of the application and website across 22 locales
- Configuring infra, analytics, log collection and replication

Experience

Infra and DevOps

- Experience in the deploying of full-spectrum infra for server platforms with k8s, gitlab CICD, Elastic Stack
- As well as using cloud providers to create infrastructure (Google Cloud)
- Experience in setting up fault-tolerant systems analytics
- And a secure features for infra (token rotation, vault provider and etc)

Server Backends

- Developed webhook-based integrations for external services and payment systems
- Integrated n8n automation into the localization system for the application and website, supporting 22 locales
- Developed an internal support system for customer and service operation

Interests

Computer Science is my major, GameDev is my interest, and Backend is my job. I have multiple technologies in backend, IoT Devices, and GameDev at the same time. I like to experiment in architecture, continue to innovate, and realize fanciful designs in my works. Hand-carved, and accept various challenges with enthusiasm and a positive attitude.
